Toilet Policy Agreement

Our school values fostering independence and supporting children's developmental milestones, including toileting skills. This agreement outlines our shared expectations regarding toileting independence to ensure a positive experience for all.

Toileting Expectations

1. **Toilet Independence:**
   The child is expected to use the toilet independently, with limited adult assistance.
2. **Communication of Needs:**
   The child should be able to verbally or non-verbally communicate their need to use the toilet.
3. **Classroom Breaks:**
   The child is encouraged to attempt using the toilet during scheduled class breaks.
4. **Support for Accidents:**
   - **Occasional accidents are understood to be part of the learning process.**
   - **The child should be able to change into clean clothing with minimal adult support when accidents occur.**
   - **Parents/guardians are responsible for providing a labeled spare set of clothes to be kept at the preschool.**
5. **Teacher Support:**
   Teachers will provide encouragement and guidance as needed, but direct assistance will be limited to helping with clothing fasteners, offering verbal reminders, and ensuring proper hygiene practices (e.g., handwashing).

Acknowledgment

By signing this agreement, parents/guardians affirm that their child meets the above toileting expectations or is actively working toward full independence. The parent/guardian agrees that in the event the child requires additional time and training, a plan will be developed together with the teachers and may result in a brief leave of absence from the program to provide time to work towards independence. The preschool agrees to support the child's development in a positive and respectful manner.
